## Music Department Special Note

Once again we are grateful to all the parents who have signed up their children for the above music lessons. This will go a long way in establishing the Music Department at School of the Nations.

This term is generally an orientation one for most of the pupils in orchestra. It takes time to get familiar with an instrument and we urge parents to be patient as their children get acquainted with the new instruments. It generally takes at least two terms for tangible results to be seen but be assured it is worth the wait. We have a team of young, qualified and enthusiastic teachers who are working together both in orchestra and individual lessons for the pupils.

We have just registered some pupils for Associated Board of Royals Schools of Music (ABRSM) exams to be done in mid June 2012. We ask parents to encourage those who have been registered for these demanding exams to practice at home what they are taught in class in order to satisfy the syllabus requirements. Good practice habits are encouraged for all who take instrumental lessons; please check your child's music note book for given homework.

Finally we urge the parents who have not paid for these lessons as per the invoices given, to do so by early next week to facilitate the running costs of the department. To ensure the success of this program, we feel it is necessary to discourage those wishing to pull out from the activity once commitment was made unless payment has been made in full for the terms' lessons.

Sincerely

MRS.MURIITHI
